

JIARUI LI

Space Science and Technology · Energy and Power Engineering

✉ jiaruili@mail.ustc.edu.cn · ☎ (+86) 191-9320-8116

🎓 EDUCATION

University of Science and Technology of China (USTC)

Sep. 2026 – Present

M.Eng. Student in Energy and Power Engineering

- Relevant coursework: Fundamentals of Plasma Physics, Advanced Electrodynamics, and Introduction to Fusion Engineering.

University of Science and Technology of China (USTC)

Sep. 2022 – Jun. 2026

B.S. in Space Science and Technology

- Relevant coursework: Space Environment and Astronautical Engineering, Spacecraft Orbital Dynamics, Engineering Drawing and CAD, Space Plasma Diagnostics, and Scientific Computing and Programming.

💼 INTERNSHIP EXPERIENCE

New Oriental Education & Technology Group, Hefei School

Oct. 2022 – Oct. 2024

Campus Ambassador

- Collected requirements from 500+ users through survey research, cleaned and analyzed the data in Excel, and delivered recommendations that helped increase community user retention by 15%.
- Designed advertising campaigns and worked with the product team to improve creative materials, increasing registrations for a single campaign by 30%.
- Coordinated marketing and product teams across three large campus events, managing schedules and resources to ensure on-time delivery.

🔬 RESEARCH EXPERIENCE

Spatiotemporal Distribution of Meteors Using Meteor-Radar Observations

Jun. 2024 – Jun. 2026

Provincial Undergraduate Innovation Training Project

- Analyze global meteor-radar observations to characterize meteor showers and calculate meteor-stream orbits; developing methods for multi-station meteor-radar analysis.
- Model meteor ablation and diffusion in the atmosphere, investigate methods for inferring background atmospheric density from meteor velocity, and validate the methods with multi-station radar data.

Joint Field Practicum at Space-Environment Observatories

Jul. 2024

Mohe National Geophysical Observatory Project, Heilongjiang

- Collaborated with students from the Institute of Geology and Geophysics, Chinese Academy of Sciences, and Shandong University (Weihai) to systematically analyze the May 2024 extreme geomagnetic storm and its effects on the space environment.

👥 LEADERSHIP & SERVICE

Fangcao Youth Volunteers Association, USTC

Jun. 2023 – Jun. 2025

Volunteer

- Served as control-room coordinator for the 2024 USTC Youth Science Camp, monitored participation and timing data in real time, and coordinated equipment scheduling with the technical team to deliver the closing event without incidents.
- Managed the Deep Space Science City exhibition area for the 8th China Space Day, designing visitor routes and presentation scripts for more than 500 visitors per day.

Student Union, School of Earth and Space Sciences, USTC

Sep. 2022 – May 2025

Officer, Department Head, and President

- Liaised with the School's Party and Youth League committees and led the planning, coordination, and execution of student activities.
- Helped organize the School's 2022–2024 welcome galas, 2024 commencement ceremony, 2024 badminton tournament, and more than 20 university- and school-level events, all receiving positive feedback.

🏆 HONORS & AWARDS

- National:** Second Prize, Space Physics Division, 10th "Innovation Cup" National Undergraduate Geophysics Knowledge Competition.
- Provincial:** First Prize (5/1,967), 2024 Anhui Undergraduate Information Literacy Competition; First Prize, Theme Essay Category, 8th Anhui Campus Reading and Creative Writing Program.
- University:** Outstanding Communist Youth League Member (2022–2023); Academician He Duohui Scholarship (2023); First Prize (1st place), 2024 "Building a Strong Country and Achieving National Rejuvenation: I Am Part of It" Summer Social Practice and Reflection Essay Competition; USTC "Star of Academic Endeavor" (2024).

⚙️ SKILLS

- Programming and tools:** C, Python, Fortran, Julia, LaTeX, Markdown, Excel.
- Technical software:** AutoCAD, SAOExplore, and Origin for computer-aided analysis and simulation.
- Languages:** Mandarin Chinese (native); English (CET-6, proficient in written and spoken communication).
- Strengths:** Analytical and logical reasoning, rapid learning, teamwork, ownership, efficiency, resilience, and a positive attitude.
